

## **Aks Kantarı**

MODEL: AKS

FİYAT: 15 ton

## ***Description***

**AKS Model axel wheel weighing systems are made high strength special aero industry aluminum material,anti-overloading ability.**

**Lightweight, and convenient transportation with handle**

**Integral flat plate construction, high frequency in dynamic response,and high precision.**

**Built-in radio module for weight transmission to a remote indicator or external device.**

**internal rechargeable battery about 50hours battery life**

## ***Application***

**Load control and weighing for the vehicles.**

**Measuring the weight and bary center of aeroplane.**

**Measuring weight for special purpose.**

## Specification

## AKS

Wireless Frequency	470MHz
Wireless Distance	Min:100m (default)
A/D Conversion Rate	≥50times/seconds
Operating Temp.Range	-20 ~ + 80°C
Operating Humidity	≤85%RH under 20°C
Battery Life	≥50 hours
Non-Linearity	0.01%F.S
Stable Time	≤5 seconds

MODEL	CAPACITY	DIMENSIONS (mm)
AKS	15 tonx5kg	600x600x69
